### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance: The instant application discloses an apparatus and method for receiving and decoding quasi-complementary turbo codes. A search of prior art records has revealed the closest prior art of record to be concurrently owned US Patent 7,093,185 B2 applicant's co-pending Application No. 10/680,815. A further search has failed to teach or suggest alone or in combination an apparatus for receiving and decoding quasi-complementary turbo codes comprising:

“a combiner for sequence combining the received symbols; a channel de-interleaver for separating the combined symbols into an information symbol stream and parity symbol streams, demultiplexing the parity symbol streams into at least one parity symbol stream according to a given code rate, and independently de-interleaving and outputting the information symbol stream and the demultiplexed parity symbol streams; and a turbo code decoder for multiplexing the independently de-interleaved parity symbol streams and the de-interleaved information symbol stream, decoding the multiplexed streams according to a predetermined decode rate, and outputting the information symbol stream” as disclosed in claim 10.

Nor does the prior art teach or suggest alone or in combination a method for receiving quasi-complementary turbo code (QCTC) and decoding the QCTC, comprising the steps of:

“(a) sequence combining received symbols; (b) separating the combined symbols into an information symbol stream and parity symbol streams, demultiplexing the parity symbol streams into at least one parity symbol stream according to a given code rate, and independently de-interleaving and outputting the information symbol stream and the demultiplexed parity symbol streams; and (c) multiplexing the independently de-interleaved parity symbol streams and the de-

interleaved information symbol stream, decoding the multiplexed streams according to a predetermined decode rate, and outputting the information symbol stream” as disclosed in claim 18.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”

## **CONCLUSION**

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Lawrence B Williams whose telephone number is 571-272-3037. The examiner can normally be reached on Monday-Friday (8:00-5:00).
